

PROGRAMME

Friday, 22nd October

Informal get together and shared dinner for people staying at Kina Backpackers.

Saturday 23rd and Sunday 24th October

After a shared breakfast we will head out on the bus tour, visiting different earth buildings each day. The tours are organized by a local EBANZ member and will include 7 different houses at the Awaawaroa Eco Village community, a strawbale with mud brick addition, a cinva ram hybrid with twirly roof features, all off grid. Our Patron's adobe, interesting sleepout, pressed brick ex Bridge home and a simple adobe. Most are part or all owner built. One day at eastern rural end and one day more residential....

Evenings will be filled with formal discussions including: the owner builder situation under the new licensed building practitioner requirements, development of light adobe bricks for better thermal performance of earth buildings, earth-based plasters, passive solar design, structural and seismic design, etc. There will be plenty of time for informal discussion and a show & tell evening where we can share our photos or videos. A short AGM is scheduled on Sunday afternoon.

Optional: Monday 25th October

Full day tour to earth buildings in Auckland, either by car pooling or chartered bus (depending on numbers). The cost of this will be additional. Please let us know asap if you are interested so that we can organize this exciting outing.
